

Technical Specification

REF: PDI6

ISS: 1

Key Features

- ADR Approval for use in Australia
- 12 or 24 volt operation
- Full Range of ECE Functions
- Popular Design for PSV Markets
- Flush or Base Mount

Technical Specification

Functions: Direction Indicator

Homologation: ECE

Voltage: 12v | 24v

Power Consumption: 3.24 (12v)
4.32 (24v)

Connection: 6.3mm Tab

Fixing: M6 Bolt

IP Rating: IP67

Material: Lens – Polycarbonate | Housing – Polycarbonate

Temperature Range: -40°C to +50°C

Part Numbers

FL1200LED12v – LED Direction Indicator 12 volt

FL1200LED24v – LED Direction Indicator 24volt
